Projects

Podcast Streaming Service - (Link)

May 2025 – July 2025

Product Design, User Experience

- Designed a podcast streaming platform to improve content discovery and create a seamless listening experience.
- Identified core user needs and defined key features including authentication, personalized playlists, podcast search, and content management.
- Improved user journeys by streamlining navigation and reducing friction in podcast discovery and playback.
- Defined success metrics such as user engagement, session duration, and content consumption to evaluate product performance.

Smart RAG Assistant with Zylos AI

Jun 2026 – Present

Product Design, User Experience

- Defined user workflows for document upload, conversational search, and AI-guided onboarding.
- Built an AI-powered knowledge assistant to simplify information retrieval from documents and websites.
- Enhanced the user experience through an interactive conversational interface for efficient knowledge discovery.

Early Detection of Skin Cancer

Jan 2025 – Apr 2025

AI Product Design, Healthcare Project

- Developed an AI-assisted healthcare solution to support early detection of skin cancer through image analysis.
- Focused on improving accessibility by delivering an intuitive interface for non-technical users.
- Designed a simple prediction workflow enabling users to upload images and receive real-time diagnostic insights.

Experience

Information Analyst Intern - (Link)

May 2026 – June 2026

Indian Oil Corporation Limited (IOCL)

Barauni Refinery, India

- Collaborated with cross-functional teams to understand operational workflows and identify opportunities for process improvement.
- Analyzed operational data and documented key findings to support informed decision-making.
- Prepared reports and presented insights to mentors and stakeholders, strengthening communication and presentation skills.
- Gained exposure to large-scale industrial operations, project coordination and stakeholder collaboration.

Volunteering and Community Leadership

- Led the Operations Team at VIT Bhopal University for 3 years, coordinating cross-functional activities to successfully organize community events and workshops.
- Discipline team lead at Garba Nights and Thar fest event.
- Event Management Team lead of Stats-O-Locked Club where I managed multiple events and workshops.
- Coordinated crowd management and ensured smooth event operations by working with organizing teams and volunteers.
